As a Python Full Stack Developer, I am dedicated to advancing my technical skills and contributing expertise to collaborative projects in a dynamic team environment while staying updated with the latest developments in technology.

EDUCATION

COLLEGE OF ENGINEERING MUNNAR

B.Tech - Computer Science and Engineering (CSE)

Idukki, KL

Aug 2023

Relevant Coursework: Java Programming, C++, Data Structures, Object-Oriented programming, Database Management Systems, Foundation in Security, Assembly Language Programming, Computer Organization & Architecture, Software Engineering Management.

PROFESSIONAL EXPERIENCE

Inmakes Infotech

Python Full Stack Intern

Kochi, KL

Sept 2023–Dec 2023

- Created intuitive desktop applications using Tkinter to enhance user experience.
- Constructed server-side applications utilizing Django and Flask to integrate RESTful APIs.
- Efficiently handled databases with Django ORM to ensure optimal performance.
- Engaged in collaborative coding on Git, prioritizing code quality through reviews and best practices.
- Used NumPy, Pandas, Seaborn, and Matplotlib for analyzing and visualizing data.

GJ Infotech

Web Designer

Thrissur, KL

May 2018–Jun 2019

- Designed and developed visually appealing and user-friendly websites using HTML, CSS, and JavaScript.
- Collaborated with clients to understand their requirements and create customized website designs.

ADDITIONAL SKILLS

- Python, Django, ReactJS, Git, SQL, HTML, JavaScript, CSS, ORM, REST API
- Visual Studio, PyCharm, JupyterNB

PROJECTS

Union Election Web Application

Developer

Description: A Web Application for student union elections designed for voters, candidates, and officers.

Used: Django, ReactJS, Google OAuth2.

- Worked throughout the development life cycle to build and maintain code.
- Created interactive components for the web application to ensure a smooth user experience.
- Developed features with Django to automate the comparison of candidate vote counts.
